Subject: 2013-2014 Maintenance Agreement

Dear Mr. Kozitza,

Please find enclosed four copies of the Agreement for Maintenance and Repair of Primary Roads in Municipalities and the Supplemental Agreement for the period July 1, 2013 to June 30, 2014.

For Exhibit A, Lane Miles-----We used the \$1050.00 per lane mile rate for the reimbursement rate for routine maintenance which again amounts to the lane mile dollar amount of \$79,879.80. The same lane miles were used for this FY 2014 agreement as were used in the FY 2013 agreement.

For Exhibit B, Traffic Signal Maintenance-----We used the estimate provided by Jennifer Bohac for signal maintenance that she submitted under her cover letter of September 23, 2013. The signal maintenance estimate for fiscal year 2013-2014 is \$67,324.60.

For Exhibit C, Other Special Maintenance-----We have used the information from last year at the following rates:

- \$90 per ton for Hot Mixed Asphalt
- \$90 per square yard for PCC repairs.

Exhibit C has not been utilized in recent years since the City has not performed any patching on these joint jurisdiction routes and therefore no charges were made against the maintenance agreement in recent years.

The total estimated cost for the fiscal year 2014 agreement is \$174,204.40. This does not include the States 80% share of the energy costs for the combined street light, traffic signal installation at Iowa 28 (63rd Street) and Park Avenue.

If this agreement meets with your approval please submit all four copies of them to the City Council for their approval and return all copies of the agreement to our office for further processing.

After June 30, 2014 we will be asking you for a cost breakdown for payment against this agreement:

1. For the signal costs in Exhibit B including:
 - a. Actual energy costs for the 63rd street /Park Ave, plus
 - b. A tabulation of any additional work that was performed in FY 2014.
2. For Exhibit C work performed.

This office will forward a signed copy of this agreement to you for your records when it is completed.

If additional information is needed, please advise.

Sincerely,

Cy Quick, P.E.
Area Engineer
