Speaker(s): Kathy Tanner - US President

Meeting Date: Monday, February 22, 2016

Regarding: The procedures to speak need changed, the current process does not allow this, and it makes being a citizen participant in government systematically difficult or impossible. The member information is online with names and addresses but staff and other participants is lacking. All need information in a publically accessible directory clear enough that even regular 5th graders could use and understand.

Also, any visual or auditory technology used needs to automatically contact any and all who have been noted through such systems using text, mail or other communication. This means any photo, video, or recording of any kind of any person needs to know when he or she is documented through these means immediately. This is already a right infringed on by government that needs corrected.
